RATE \$25 X _____ = \$ _____	

Changes in Services

have you ever had mornings, afternoons and days slip by and wonder where it went? That happens in cleaning! You want to give those special touches and extras to each client without charging more then you find yourself falling behind on the routine tasks or priorities.

To keep things straight any extra items will be dealt with last. If the client decides that this is something that they want included then all extras will be billed separately from the routine house cleaning services.
